## 2022/2023 Annual Report

## Message from the Executive Director

Community Neighbors-

Edmonds College Head Start/ECEAP & Early Head Start began the 2022-2023 school year with a shortage of staff. As a result we could not open three classrooms. In April of 2023 we received an enrollment letter from the Office of Head Start. The letter states that we have to be at 95% of full enrollment by April 2024. At the end of the 2022/2023 school year we lost three Head Start classrooms in Edmonds School District.

The program has also had some difficulty in hiring Early Head Start Home Base staff. We have not been able to fill five positions further adding to the low enrollment issues. As a result, the program developed some aggressive plans to make changes to programming to meet the enrollment requirements.

These changes are very exciting and will better meet the needs of families and the community. For the 2024/2025 school year we will offer more school day programming doubling the number of this model of classes, for children 3-5 yr. olds. We will also be opening Early Head Start center base classrooms, for toddlers and infants.

With American Rescue Plan (ARP) funding, the program is opening a new site in Lynnwood. It is scheduled to open at the end of April 2024. This site will house two school day classrooms and one part day for 3-5 yr. olds.

Warmest Regards,

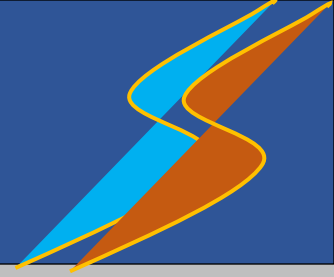

*Ginger Williams*

Executive Director

### Mission Statement

To provide high quality early childhood education and empower families by removing barriers and respecting differences.

# Our Program Services

## **Head Start /ECEAP**

Child development and family support services available for children ages 3 to 5 who are low-income and reside in Snohomish County. Services include comprehensive preschool, home visits, parent and child activities, health screenings, meals, and opportunities to volunteer, and parent involvement activities. Part day and school day preschool classes, 4 days a week to help support school readiness.

## **Early Head Start—Home Base**

Our Early Head Start program serves families with children birth to three years in a Home Base model. Home Base involves weekly home visits that offer child development activities to help enhance school readiness goals at an early age.

The home base program also offers monthly socialization events for each family. Group socializations are a time that parents and their children can come together and focus on interacting with each other while participating in age appropriate activities.

**Early Head Start center base classrooms to open in the 2024-2025 school year!**

# Enrollment

Since the pandemic began in 2020, our program has struggled keeping full enrollment. Facing continuous staffing shortages and losing classroom space has contributed to this challenge. Enrollment has been a large focus for the program.

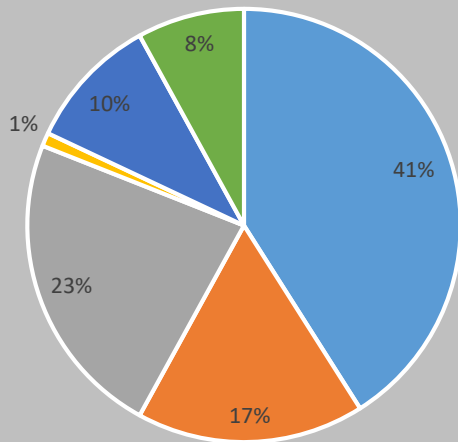

## Cumulative Enrollment

Head Start **278**

Early Head Start **119**

ECEAP **77**

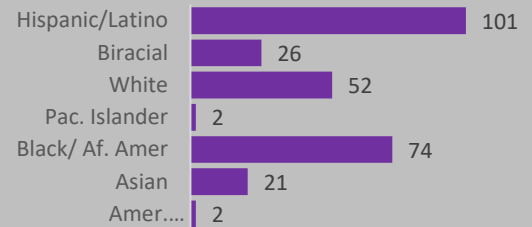

## Enrollment by Eligibility

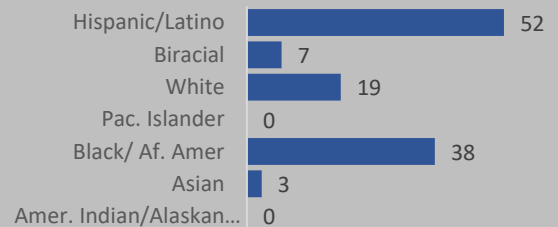

- At or below 100% Poverty
- Income btwn 100-130% Poverty
- Pub Asst.
- Foster
- Homeless
- OI

## Race & Ethnicity

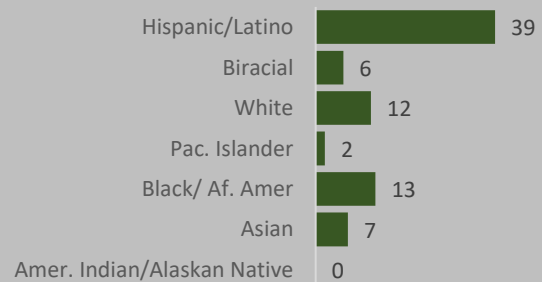

### Head Start

### Early Head Start

### ECEAP

# Family Engagement

Edmonds College Head Start & Early Head Start served more than 500 families in the 2022/2023 school year. Each child comes to us with a family; therefore, we work with families to help children become more successful in school. We know that if a child is hungry, cold, or feeling sick, they will not be at their full learning potential. We make sure each family has their basic needs met so that they are more successful at focusing on meeting their child's educational needs.

## Family Home Language

# School Readiness

Edmonds College Head Start & Early Head Start strives to achieve high standards in our services to children and families. Therefore we have set school readiness goals so that children leave our program with skills and competence for kindergarten.

## Program Overview

**9** Classroom Sites

**132** Families Enrolled in EHS-Home Base Services

**283** Children enrolled in Part Day Head Start preschool classrooms

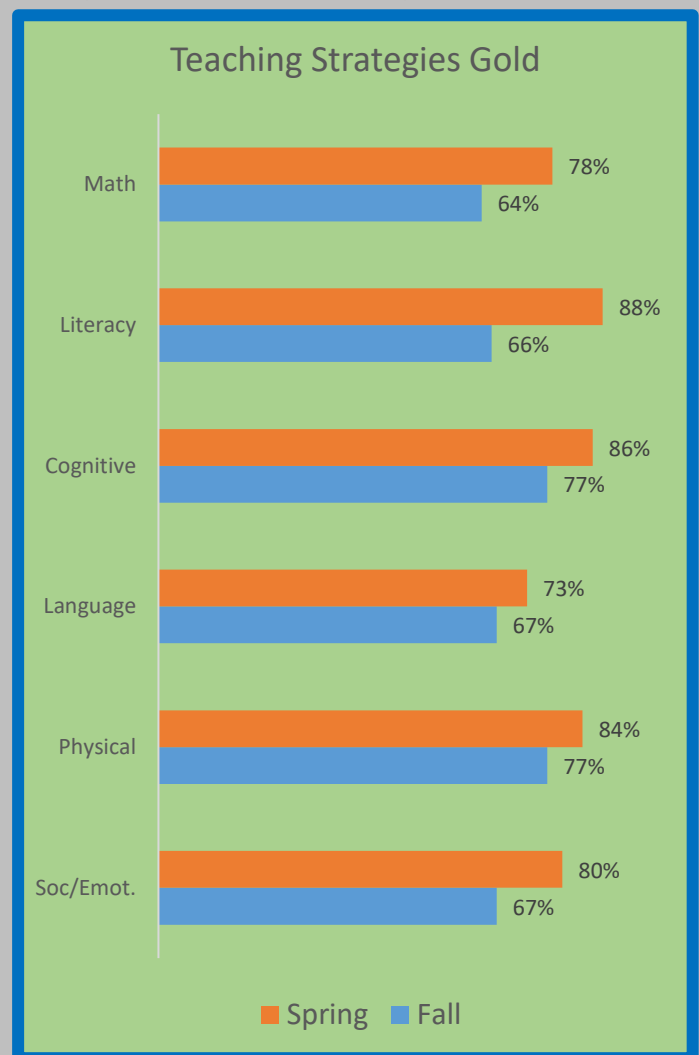

**76** Families enrolled in ECEAP Services

**90%** of staff work directly with children & families

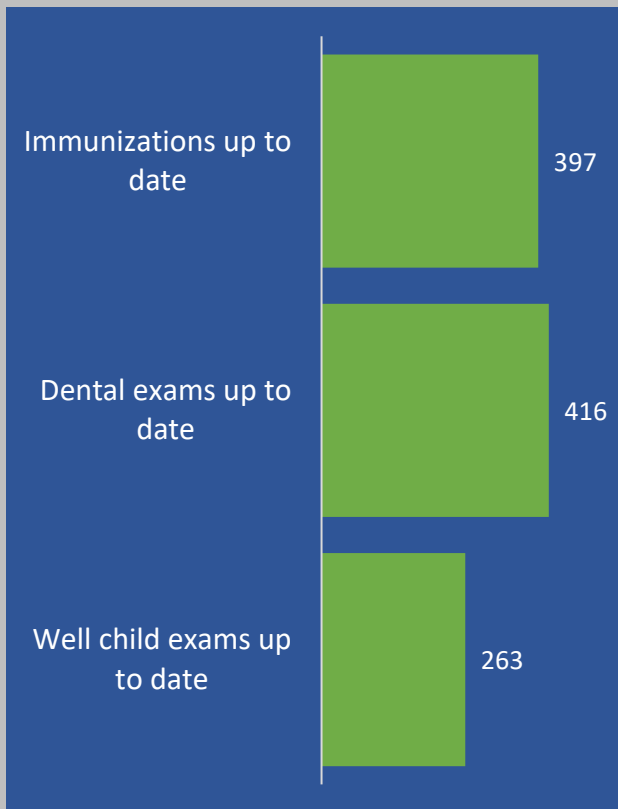

## Child Outcomes

2022-2023 Early Learning Children Who Met or Exceeded Widely Held Expectations by Developmental Domains

# Health

Edmonds College Head Start & Early Head Start knows that healthy children are happy, learning children. Some requirements of our program are to complete developmental assessments, track well-child exams and health screens for every child. These assessments have helped many children receive much needed services and resources that might have otherwise gone unnoticed. We know that the earlier a child receives services, the more successful they will be in school.

During our health screens we found:

**10 children had hearing problems**

**13 children had vision problems.**

## Prenatal Services

Our Early Head Start Prenatal service includes:

- Fetal Development Education
- Nutrition & Breastfeeding information
- Safe sleep for infants
- Connection to community resources
- Preparing for baby's arrival
- Parenting concepts
- Healthy practices

**4 Prenatal Women Served in 2022/2023!**

# Mental Health & Disabilities

Our Disabilities and Mental Health Consultant works as a team to support teachers in identifying the physical and social emotional needs of children. Our team also offers ongoing technical assistance and coaching for parents around referrals and ongoing work with the school district for children with IEP's or IFSP's.

Ages & Stages Questionnaire provided reliable, accurate developmental and social-emotional screening for children between birth and age 6.

- Ages and Stages Questionnaire (ASQ) is completed on each child within 45 days of enrollment
- Ongoing assessments are completed year round with Teaching Strategies Gold

## Disabilities at a Glance

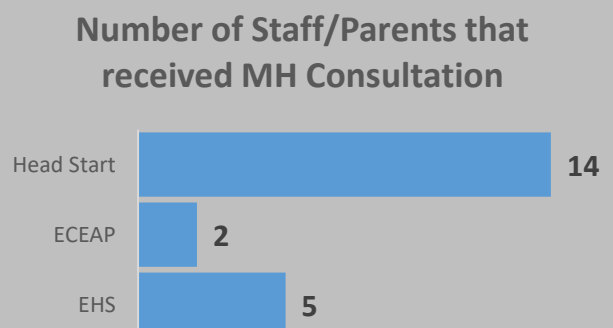

**448** ASQ Assessments completed

**19** children served with Individual Family Service Plans (0-3 yrs)

**27** children served with Individual Education Plans (3-5 yrs)

## Mental Health at a Glance

Our Disabilities and Mental Health Consultant works closely with teaching staff on ways to support children to promote healthy social-emotional development
