EVENT HIGHLIGHTS JUNE-AUGUST 2015

- In June, I attended my second session of a two-day “Undoing Racism” workshop that was hosted on our campus. Trustee Chair Emily Yim also attended. We had about 30 employees from the College participate and have very rich conversations about diversity, race, and equity. We are planning to offer another session later this quarter.

- At the end of June, I traveled to San Diego to participate on a panel at the STEM Solutions Conference that is hosted by U.S. News & World Report. Approximately 40 individuals attended our session. I had the opportunity to share work EdCC has done through Achieving the Dream; Math Modules and pathways; Competency Based Education; Math, Engineering, and Science Achievers (MESA), and the Snohomish County STEM Network. It was an honor to be asked to present at this conference at a national level.

- In July, I attended the annual WACTC summer retreat in Winthrop. Our agenda covered Capital Projects for this coming year, of which our Science, Engineering, and Technology Building is included; 2016 legislative session; 2015 legislative action, including the reduced tuition, cost of living raises for employees, dual enrollment, and veterans; and further discussion of the new allocation model.

- The President’s Club reception was a huge success with around 100 individuals attending. The reception was held on August 12 at the home of Dean and Mayor Carla Nichols. It was a great opportunity to thank and celebrate the contributions of our donors at the $1,000 level or higher. An added treat was a musical band whose members were Edmonds Community College students, and they were fabulous!!

- Fifteen Edmonds Community College employees and I participated in a three-day FEMA emergency planning training for higher education that was hosted on our campus. Not only did we learn a lot, we also had the opportunity to review our own Emergency Operations Plan (developed in 2011) and see where we needed to update, but also experience two days of “hands-on” table top experiences that addressed a fire, student protest, and possible terror threat to an imaginary college in the mid-west. It was a very positive experience, and we all learned more about Incident Command System (ICS) and the Emergency Operations Center (EOC) which are protocols used by Fire and Law Enforcement, as well as our campus, for handling any type of emergency or large group event.
